

## A 3D architectural rendering of a single-story house. The exterior is finished with dark red brick. The roof is grey and features a gabled design with wide eaves. On the left side, there is a small arched window with a white frame. In the center, a wooden front door with glass panels is set within a recessed porch area. To the right, a large two-car garage with light-colored wooden doors is visible. The house is shown from a perspective view, highlighting its overall form and material choices.
